

To Whom it May Concern

Reference for Pipe Technologies Ltd

We are Consulting Engineers responsible for condition investigation, design and site supervision for North Shore City Council's wastewater rehabilitation works, that are being undertaken as part of ProjectCare, as well as similar works for other clients.

Pipe Technologies Ltd have worked as subcontractors on a number of contracts we have supervised. Their work has involved lining of public laterals and some mainline sewers, as well as rehabilitation of private sewers.

In our dealings with Pipe Technologies Ltd, we have always found them to be professional, and their work has been carried out to a high quality standard.

Yours faithfully,

A handwritten signature in grey ink, appearing to read "Philip McFarlane".
